**SM 200**

**SM 500**

# Magnetic Destoner

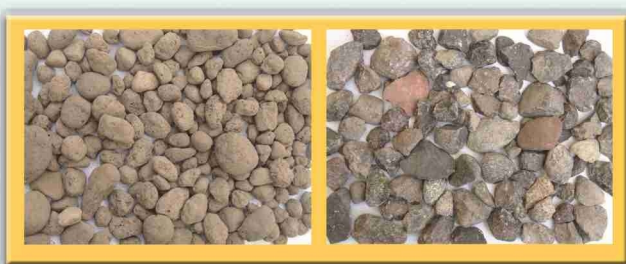

## Model SM

The Magnetic Destoner allows to separate stones and clods that contain iron through a cleaning process of agricultural products. Its magnetic roller attracts even the smallest percentage of iron, which is difficult for densimetric tables to do.

### Accept

### Reject

- The SM series also reduces abrasion on other machines and helps maintaining cleanliness in the facility.
- It can also be used for cleaning other type of products that have different percentages of iron between them.

- **IMAN:** Long lasting magnet.
- **BAND:** The conveyor belt meets all sanitary conditions for food processing.
- **Efficiency:** This machine can reject near %100 of foreign bodies from food products.
